An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Adrian D. Battison on May 7, 2004.

The application has been amended as follows:

In line 33 of claim 27, --apex-- has been (re-)inserted between "the" and ";".

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to show to suggest a shelving rack, as specifically called for in the claimed combination of claim 27, whereby the main shelf portion extends from the front beam receptacle to an apex (see lines 30-31) and the rear edge portion extends downwardly from a position spaced above the respective rear beam at the apex (see lines 37-38).

The prior art of record fails to show or suggest a shelving rack which comprises each shelf to be formed from wire mesh with longitudinal wires across the depth and transverse wires across the width thereof whereby the longitudinal wires are bent adjacent a rear edge of the shelf thereby forming a downwardly turned rear edge portion so that the bottom thereof engages into

the rear receptacle (see last 7 lines of the claim), as specifically called for in the claimed combination of claim 31.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
